COVID-19

COVID-19 TESTING PROTOCOL FOR GITAM BENGALURU CAMPUS

From January 2021 onwards, we will be having an increased inflow of students where our students need to be tested upon entry into GITAM Campus during this period. With the increase in the frequency of testing, we hope to allow our students to safely return from January 2021 onwards and safeguard every single individual in the GITAM Campuses.

To make sure that we are COVID safe, every student will be tested during this period before accessing any of our campuses. GITAM Bengaluru Campus has tied up with local Public Health Center who will come to the Campus to test the students as required.

Students will be sent to the PHC as a walkin if we have less than 5 students. If we have more than 5 students, the PHC Swab Collection Team will visit GITAM Bengaluru Campus and collect the samples. In case, we have more than 10 students to be tested, a Swab Collection Camp will be organized in the Campus and the students will be tested accordingly.

All COVID Test results will be shared in 24 hours by the Health Dept. Authorities.

Please contact covid19help@gitam.edu for more details and support.
